Key: 1 = Poor, 5 = Best, - = No Data, * = based on limited data.

Data is based on averages collected from around the world & are indicative relative values only. Always trial in your region.

All Disease and chemical are rated 1 - 5 where;

1 = Susceptible, 2 = Moderately Susceptible, 3 = Moderate, 4 = Moderately Tolerant and 5 = Tolerant.

Common Rust Rp1D ratings: Rp means that it has the Rp1D gene and will be tolerant to that strain of Rust.

A 1-5 rating means it does not have the Rp1D gene but has this rating to all current strains of Rust including the Rp1D strain.

Rust race D-v: 1-5 means it will have this rating to all other current strains of Rust.

Chemicals: Callisto(Active: mesotrione) Accent (Active:nicosulphuron) Option (Active:foramsulfuron)

Goldenpearl is a high quality, exceptional cob style hybrid. With very tender pericarp, straight kernel rows, and good colour contrast. Excellent tip fill and reasonable husk cover. It is difficult to grow and should be given optimum conditions, susceptible to seedling blights under poor conditions.

Crunch is a strong vigorous bicolor. With excellent eating quality on a grower friendly plant, this variety will cope with a wide range of conditions. The medium sized well filled cobs have great colour definition, excellent tip fill.

Samurai is a Rust tolerant supersweet bicolor with deep yellow and bright white kernels on a very large cob. Hence Samurai provides a late planting option for bicolor producers worldwide.

Entree is a very early large cob bicolor supersweet. Ideal for start up and catch up plantings. The sturdy vigorous plant suitable for cooler conditions. The large cylindrical cobs suit freshmarket and home garden.

NEW TRIAL: ZHB01920J is an early maturing medium cob size variety, aimed for very early start up and catch up plantings. Has extremely good eating quality. Medium sized cob and a sturdy vigorous plant. Competes in the Entrée slot.

NEW TRIAL: ZHB13210K is a full season large cob variety, in the style of Crunch. With an excellent plant style, good vigour and large uniform cylindrical cobs. Trial against Crunch & Goldenpearl

NEW TRIAL: ZHB21620L: is a full season large cob variety, in the style of Goldenpearl. With an excellent plant style, good vigour and large uniform cylindrical cobs. Trial in all main season slots.

NEW TRIAL: ZHB24500M: is a full season large cob variety, in the style of Goldenpearl. With an excellent plant style, good vigour and large uniform cylindrical cobs. Trial in all main season slots.

NEW TRIAL: ZHB26220M: is a full season large cob variety, in the style of Goldenpearl. With an excellent plant style, good vigour and large uniform cylindrical cobs. Trial in all main season slots.

NEW TRIAL: ZHB26300M: is a full season large cob variety, in the style of Goldenpearl. With an excellent plant style, good vigour and large uniform cylindrical cobs. Trial in all main season slots.

NEW TRIAL: ZHB26420M: is a full season large cob variety, in the style of Goldenpearl. With an excellent plant style, good vigour and large uniform cylindrical cobs. Trial in all main season slots.

Supersweet White Hybrids.

Everest: is a mid season, large cob sized 18 row variety with creamy white colour & excellent quality. Has a strong plant style and high yield potential. Cobs can get very large. Suitable for

ZHW1287NF: is a full season medium cob sized variety with a bright white colour & excellent quality. Suitable for canning & freezing
